INTERNATIONAL FEDERATION OF **SPORT CLIMBING**
www.ifsc-climbing.org

Information about the number of athletes eligible per team in each discipline:

In the following "single" refers to Lead, Bouldering or Speed.

When going through the registration process, the maximum number of Athletes a team can register in one discipline is 6, however, the quota for each "single" discipline remains 4.

(Given that the combined discipline and the other three "single" disciplines overlap in the "single" rounds, this means that in each "single" discipline round, the number of starters can exceed 4. The maximum number of total Athletes per team in one discipline is 6.)

This means that in each category, you can register either

(A) 4 in the "single" and 2 in the combined discipline

or

(B) 3 in the "single" and 3 in the combined discipline

or

(C) 2 in the "single" and 4 in the combined discipline

That means: if you have four Athletes that compete in combined, you can register 2 more Athletes in each discipline.

One case example:

You have 4 specialists in lead that do not compete in other disciplines.

You have 4 Athletes that compete in "combined"

In this situation you must choose to either register the 4 specialists and 2 in combined **(A)**, or 3 specialists and 3 combined **(B)**, or all four specialists and 2 combined **(C)**. In each case, 2 Athletes remain at home.

Another example:

You have 4 specialists in lead that do not compete in other disciplines.

You have 2 athletes that compete in "combined"

You can register all Athletes **(A)**.

Attention: See the attached PDF for an illustration with possible selections!
